

Current status of YUPO Corporation against COVID-19

Yupo Corporation extends our sympathies to those who have been impacted by COVID-19 outbreak. During this time of uncertainty, we are continually monitoring the latest updates and information about the global COVID-19, and we are taking additional measures to ensure we safeguard the health of our employees and preserve our ability to operate. We would like to inform about some of the ways we are taking measures and current situation of production and operations.

1. Production availability

Currently, we do not foresee any limitations from raw material suppliers, nor do we anticipate this in the forecast in our plant both in Japan and United States. In order to best serve our customers, we will continue production at this time. Also, we do not hear immediate problems for the dispatchment of products from Japan port. Should there ever be a concern or if production times change, we will update you as soon as possible.

2. Company measures

Currently nobody in our company is infected with COVID-19. Since the beginning of March, YUPO Corporation have implemented meeting and business travel guidelines and limited visitors allowed in our plants. In addition, YUPO Corporation strongly recommend all employees to work at home or telework and flex-time work to reduce the risk of infection.

Due to the rapidly changing environment, please contact your sales representative with your order requirement and details as early as possible so we can have your order ready in a timely manner.

26th March 2020
